

empowering people in care

EXECUTIVE SUMMARY ADVOCACY REPORT FINDINGS 2017

EPIC is Ireland's only independent advocacy service for young people with care experience. EPIC was founded in 1999 and celebrates its 20th anniversary next year.

EPIC offers a voice to children and young people with care experience - our purpose as an organisation is to support children and young people with care experience to have their voice heard. Our goal is to work with children and young people influence positive change in their own circumstances and the care system.

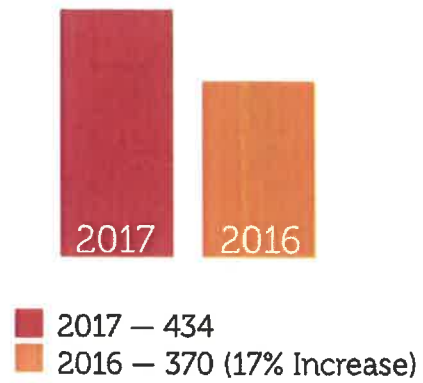

We are a national organisation that provides one to one advocacy to children and young people with care experience, offer a wide range of opportunities for young people to participate and engage with decision makers and with other children and young people with care experience. We also work to influence national policy and systemic change.

The data presented in this summary will help to inform the future development of EPIC's Advocacy work. In addition, the issues raised will contribute to EPIC's policy work by helping to track emerging trends in presenting issues being experienced by young people who received support from EPIC's National Advocacy Service.

• Advocacy Cases

• Referrals

• Gender

• Chart 2 : Age Group of Advocacy Cases (n=563)

• Ethnicity

• Separated Young People
